# MORAITIS HYDROPONICS 2007

## Australian Hydroponic and Greenhouse Industry National Conference

June 24 - 27 2007

Hotel Grand Chancellor & Albert Hall Launceston Tasmania

### "Challenge the Future"

- Trade exhibition
- Technical lectures
- Guest speakers
- Retail topics
- Workshops
- Hydroponic farm tours
- Banquet dinner
- Aquaponics
- Complimentary tourism options
- All crops catered for in a protected cropping environment.

# MORAITIS HYDROPONICS 2007 AUSTRALIAN HYDROPONIC & GREENHOUSE INDUSTRY NATIONAL CONFERENCE

24 - 27 June 2007,  
Hotel Grand Chancellor,  
Launceston, Tasmania

## For Greenhouse and Hydroponic Vegetable and Cutflower Producers

### Challenge the future:

*Never have there been greater challenges!  
Never have there been greater opportunities!*

The Australian Hydroponic & Greenhouse Association (AHGA) was formed in 1989 to represent greenhouse and hydroponic growers throughout Australia. The executive committee works hard on major issues affecting your future. The most significant event of the AHGA however, remains the national conference held every two years. It has grown to become a major event.

The last conference held in Bundaberg in 2005 was a huge success. This year's conference in Launceston, Tasmania, promises to be even better.

### Growers

Are you unsure about your future?  
Should you modernise?  
Should you expand?  
Would you like to know more?

Your national industry conference in Launceston in June is the place to find answers to these questions. It's a great place to meet other greenhouse growers from around Australia as well.

A trade exhibition at the conference will have 44 companies showcasing the latest technology in greenhouse structures, control systems, hydroponic equipment, propagators, information services and more.

### The Keynote Speakers are world class

- \* Mark McCrindle, Australian futurist - what does the future hold?
- \* Veronica Richardson from the UK - achieving success in marketing.
- \* Plus an exciting program of talks and workshops (See p3).

### AGM & Welcome Cocktails

On the evening of Sunday 24th June AHGA members and affiliates are invited to participate in the AGM and elections of the 2007/8 committee.

Full details at the AHGA website  
[www.ahga.org.au](http://www.ahga.org.au)

A key discussion on the future of this industry will be held and AHGA President, Graeme Smith will review the past two years' achievements.

Afterwards, food and drinks will be provided so you can meet other conference delegates in an informal surrounding.

### Scholarships

The AHGA is offering up to four encouragement scholarships to attend the conference.

### Conference Banquet Dinner

3 minutes walk from the Hotel Grand Chancellor is the Albert Hall, a Victorian building that oozes Tasmanian history. We promise you not only more good food and Tasmanian wines, but also some entertainment you won't forget, ending in music to dance by.

### Hydroponic & Greenhouse Farm Tours

On Wednesday 27th June we will take you along the north coast of Tasmania visiting soilless properties to see a range of crops, including seedlings, capsicums, flowers, lettuce and tomatoes.

### Tourism Options

Tasmania is a beautiful corner of the world, rich in heritage, spectacular scenery and vibrant culture. Extend your trip by taking one of the pre- or post conference tours on offer. See the AHGA web site for details.

At the Moraitis Hydroponics 2007 National Conference, you can learn what is happening in protected cropping and return home refreshed, with renewed enthusiasm.

### Accommodation

Rooms have been reserved at:  
**Hotel Grand Chancellor (Venue)**  
\$130/night Ph: 03 6334 3434  
**Mercure Earlington Hotel (next door)**  
\$125/night Ph: 03 6333 9999  
A list of further nearby accommodation can be found at; [www.ahga.org.au/conference](http://www.ahga.org.au/conference)

### Travel

Cheap airfares are available to Launceston via [www.jetstar.com](http://www.jetstar.com) and [virginblue.com.au](http://virginblue.com.au).

# MORAITIS HYDROPONICS 2007 AUSTRALIAN HYDROPONIC & GREENHOUSE INDUSTRY NATIONAL CONFERENCE PROGRAM

No.	SPEAKER	TITLE
1	Mark McCrindle	Changing times, changing trends: a snapshot of the 21st Century consumer and worker
2	Veronica Richardson	Generic promotion for fresh produce does work!
3	Terril Marais	Bumbles in the driving seat - IPM the NZ way
4	Horst Sjostedt	Successful IPM in practice
5	Rick Donnan	Fundamental management of hydroponic systems
6	Mike Nichols	Year round berry fruit production
7	Ben van Onna	Effective use of heat buffer systems
8	Ben van Onna	Temperature integration for optimum crop photosynthesis
9	Joe Doef	Growing greenhouse vegetables in Alberta, Canada
10	Joe Doef	Marketing greenhouse vegetables in Alberta, Canada
11	Rene de Vos	Automation developments and possibilities in packhouse facilities in the future
12	Joe Ekman	Risky business - new developments in on-farm assurance programs
13	Dr Jenny Ekman	What Asian vegetable is that? - developing an innovative marketing strategy for Asian vegetables
14	Brett Roe & David Midmore	Aquaponics & Green Rooftops
15	Toon Oomen	Hydroponic heated tomato growing is top sport!
16	Jeremy Badgery-Parker	Opportunities from new crops - making the most of greenhouse and hydroponic horticulture
17	Sophie Parks	Nitrate accumulation in leafy vegetables, a potential food safety and product quality problem
18	Graeme Smith	Where IS the best place to grow greenhouse crops in Australia?
19	Graeme Smith	Understanding irrigation in protected cropping and soilless culture
20	Len Tesoriero	Overseas disease threats to Australian ornamental and vegetable hydroponic crops - what to look out for
21	Steven Palmer	Retail value adding - benefits for you and your client
22	Ken Holland	Renewable energy heating and reduced reliance on fossil fuels
23	<b>WORKSHOP - Monday</b> Peter dal Santo, AgAware, coordinator	Minor Pesticide Use - Gap analysis & further pesticide needs, plus a new APVMA initiative for reduced-risk pesticides
24	<b>WORKSHOP - Tuesday</b> David Costa coordinator	Marketing opportunities for hydroponic produce - where are they and how can you get to them?
25	<b>RETAILERS' WORKSHOP</b> - Monday evening Graeme Plummer, coordinator	Implications of government legislation on the retail hydroponic industry.
26	<b>At Trade Booth 33</b> (NSW DPI IPM & biocontrol industry specialists)	What would you like to ask about IPM.
